OBJECTIVE

YOMI LIFE, promote the acquisition of healthy lifestyles as a protective strategy against early onset of substance use and associated problems in 3,500 children in the municipality of Andes-Antioquia, Colombia. Through advocacy strategies, training, support networks and evaluation, in which parents, teachers and public entities will be included.

JUSTIFICATION

High levels of micro-trafficking and consumption of drugs, legal and illegal.

Families whose only income is from the sale of drugs

Easy access to drugs to minors, sometimes used for transport and delivery.

Children 10 and 12 years, or even less, initiating substance use.

Obvious need to provide comprehensive prevention programs.

FINANCIAL COSTS
