OBJECTIVE

Implement Playful Laboratory which seeks to strengthen learning processes in the community of Medellin, through innovative strategies and the revitalization of a playful laboratory based on strengthening life skills, competencies and values seeking to prevent children and young people being linked to illegal armed groups.

JUSTIFICATION

The playful Lab is a space created for constructive use of leisure time, in addition to strengthening values, social skills and citizenship skills, enables the encounter between people, healthy living and community building. It is planned as a protective environment to respond to social risks evidenced in the community. The Concreto Foundation has provided a permanent space and economic contribution to work on preventing violence.
